InstruMED - Vascular scissors - Vascular scissors

ARTG Identifier	305789
ARTG Start Date	29/06/2018
Product Category	Medical Device Included Class 1
GMDN	44354
GMDN Term	Vascular scissors
Intended Purpose	A hand-held surgical instrument designed to cut a blood vessel (i.e., to cut over a blood vessel or cut longitudinally to split it open) during open vascular surgery; it is not intended for endoscopic use. It comprises two pivoted blades typically with a finger and thumb ring-handle and which cut with a shearing action. It is typically made of high-grade stainless steel and is available in various designs and sizes; the blades are often pointed to penetrate the vessel wall and may be straight, curved sideways, or acutely angled. Some types can have carbide inserts along the cutting edges. This is a reusable device intended to be sterilized prior to use.

Manufacturer Details	Address	Certificate number(s)
Elcon Medical Instruments GmbH	Dr Karl-Storz-strasse 26A Tuttlingen , 78532 , Germany	

ARTG Standard Conditions

The above Medical Device Included Class 1 has been entered on the Register subject to the following conditions:

- The inclusion of the kind of device in the ARTG is subject to compliance with all conditions placed or imposed on the ARTG entry. Refer Part 4-5, Division 2 (Conditions) of the Therapeutic Goods Act 1989 and Part 5, Division 5.2 (Conditions) of the Therapeutic Goods (Medical Devices) Regulations 2002 for relevant information.
- Breaching conditions of the inclusion related to the device of the kind may lead to suspension or cancellation of the ARTG entry; may be a criminal offence; and civil penalties may apply.
